### **Hello world program in node js**

Step 1: Install the node js application.

Step 2: Create a file with .js location and save it with desired name and in required location.

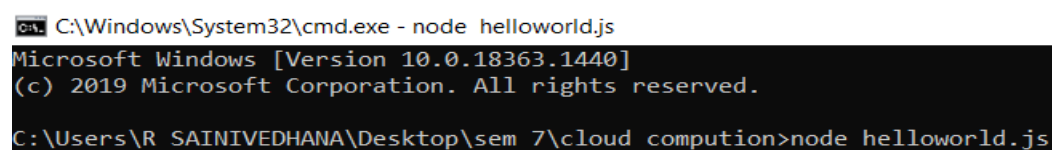

Step 3: Write the code to display the message when the given port is accessed.

Code:

```
var http = require('http');  
http.createServer(function(req,res){  
  res.writeHead(200,{ 'Content-Type':'text/plain' });  
  res.end('Hello World!');  
}).listen(8080);
```

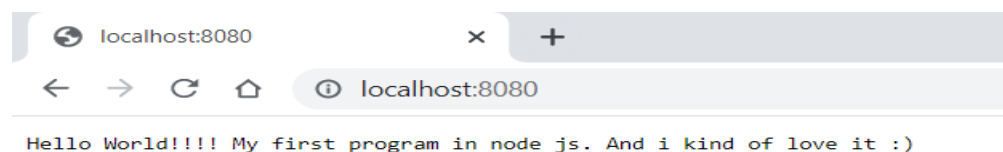

Step 4: Open the command prompt in the location of the saved file and run the saved file as follows:

node <filename.js>

```
C:\Windows\System32\cmd.exe - node helloworld.js  
Microsoft Windows [Version 10.0.18363.1440]  
(c) 2019 Microsoft Corporation. All rights reserved.  
  
C:\Users\R SAINIVEDHANA\Desktop\sem 7\cloud computation>node helloworld.js
```

Step 5: Open the browser and access the port 8080 to receive the message or output of the file.

localhost:8080

← → ↻ 🏠 ⓘ localhost:8080

Hello World!!!! My first program in node js. And i kind of love it :)
